Easy as it seems...

Manage your PnV cameras with Provision PNV2 APP. The APP is free, protected against unwanted access, simple to use, and highly intuitive!

Wireless support

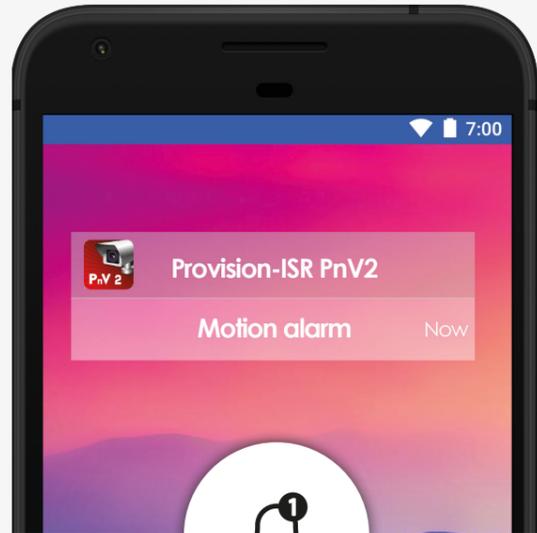

Single or multiple views

Local recording on micro SD

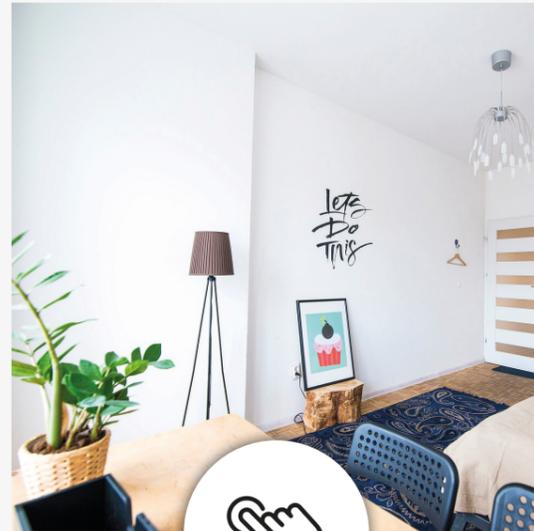

Day & Night

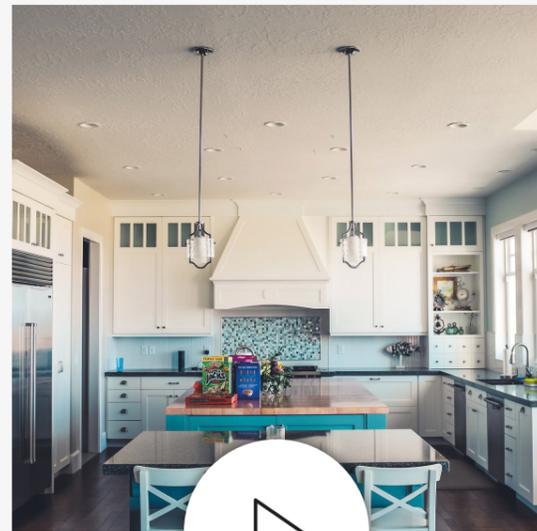

PUSH NOTIFICATION

Get a push notification with the occurrence of an event.

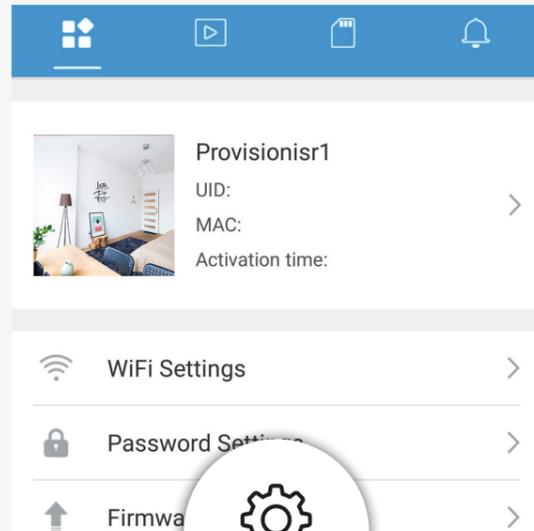

TOUCH GESTURES

Feel free to move and zoom the camera with the multi-touch system.

PLAY BACK

Play recordings stored on the memory card *.

SETTINGS

Manage camera settings remotely.

*memory card not included.

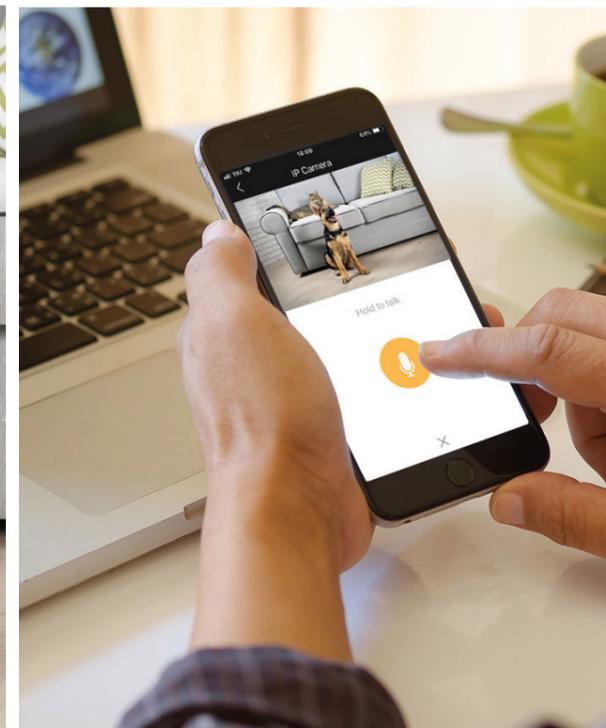

Advanced motion detection and warning

Thanks to motion detection alerts, you won't need to access your camera continuously: there will be a push notification to alert you in case of a detected event!

Two-Way audio

Thanks to the integrated microphone and speaker, you will be able to enjoy an optimized communication experience and interact with whoever you want remotely!

"Day & Night"

Feel safe even at night! Provision-ISR PnV cameras guarantee optimal performance even in low light conditions!
